WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Deck 1000 x 450: plywood, faced with 3 mm HDPE glued and screwed.
Nine riffles, HDPE strip 6 wide, 8 tall, glued along the deck,
60 in from the front edge, then every 38 to the back; each
starts 30 later than the one in front (60, 90 ... 300 from the
head end) and all stop 40 short of the far end.
Feed box 180 x 90 x 70 at the back of the head end.
Wash pipe: 40 mm PVC, 770 long, 3 mm holes every 25 toward the
deck, along the back edge from 190 to 960; end cap; hose tail.
Pitman cheeks: two steel plates 40 x 22 x 6 under the head end,
12 mm apart; a slot 12 wide, 20 long along the table for the
pitman pin (8 mm of free play toward the far end, for the stop).
Check: deck flat within 1 mm; riffles straight and well stuck.
