This part in colour, its neighbours in grey

**HOW TO MAKE IT AND HOW IT FITS**

Launder: a U channel 100 wide, 60 deep, 810 long, under the deck's front edge, with a 60 mm spout at the head end.
Two legs 640 tall. Tailings run to a bucket under the spout.
Concentrate box: 120 x 290 x 120 tall, open top, under the far end of the deck (gold walks off the riffle ends into it).
Hinged lid with a hasp for a padlock; four legs 640 tall.
Both stand on the ground 15 mm clear of the moving deck.
Check: box top 30 below the deck end at its lowest point; the lid locks with the deck in place.
